

INTERNATIONAL INTENSIVE HANDS ON MUSCULOSKELETAL MRI AND ULTRASOUND CONFERENCE AND WORKSHOP FOR RADIOLOGISTS

HOLIDAY INN RESORT , PENANG ISLAND , MALAYSIA
21ST TO 24TH March 2012 (35 hours of CME)

General Information

In Asia, there is a lack of accurate musculoskeletal (MSK) MRI reporting and ultrasound performance among general radiologists. Therefore, there is a need for training with emphasis on the strengths and weaknesses of MSK MRI and ultrasound in day-to-day practice.

This intensive, hands-on course allows radiologists to report on basic MSK MRI and perform screening and/or diagnostics ultrasound with at least 80% accuracy. Homework, together with a reporting template, will be given at the end of each day. These 10 cases are specially chosen as they show the pathology that is missed in common day to day reporting resulting in low accuracies.

The course will emphasise practical tips and pearls not found in textbooks. The faculty consists of well-established teachers and trainers from Asia, Australia and USA. Accurate diagnosis based on clinical history, simple physical stress tests and imaging findings will be highlighted.

In addition to a worthwhile course, the location of the conference hotel at the heart of the golden tourist beach area of Batu Ferringhi in Penang, will certainly make your trip more memorable. Just step out of the hotel and you will be greeted by street shops selling clothes, bags, DVD's, branded shoes and household ornamental items at bargain prices. The Penang night food is also world famous. March is traditionally the sunniest time of the year in this part of Malaysia .

Faculty:

Prof Dr John George (COURSE DIRECTOR)
MBBS(Adelaide), DMRD(Aberdeen) FRCR(UK).
Chief Musculoskeletal Radiology, University of Malaya Medical Centre

Dr Daniel Makes MD
Director of Ultrasound Training Center,
Indonesian Society of Ultrasound in Medicine, Indonesia

Dr Lincoln Gillam
North Coast Area Radiology Private Practice and Area Health Services,
New South Wales, Australia.
MSK Fellowship , Toronto , Canada.

Dr Paul Johnson
Ultrasound trained Sports Physician, Vancouver Sports Clinic, Oregon,
USA. Joint Injection trained by Wisconsin group.

Dr Nazrila Hairaini , Consultant Radiologist, Ministry of Health,
Malaysia . Fellowship in MSK Radiology , Canberra.
